- Supports Blu-ray

Raster CD/DVD DICOM Burner is an easy to use disc recorder that concurrently records and labels CDs and DVDs on demand. Raster DICOM Burner has advanced robotics which comes with a user friendly touch screen interface. Equipped with dual CD/DVD drives and a built in colour printer. Raster DICOM Burner seamlessly records patient information, reports and DICOM images to the CD/DVD while at the same time automatically labelling the disc with the facility logo and study descriptions. Raster DICOM Burner is capable of processing multiple jobs simultaneously. With the embedded DICOM viewer, recipients can access the contents from any standard PC.

- ◆ Intuitive Touch Screen Interface
- ◆ Advanced Robotics for automation
- ◆ Customisable modality specific labels
- ◆ In-built DICOM viewer

We've worked with a diverse customer base. How can we help you? Raster Images has been a "Trusted Adviser" for many medical institutes.
